Dear Landowner,

The Suisun Resource Conservation District (SRCD) is requesting your permission for an access agreement to measure elevations of the water control structures, staff gauges, and pond bottom elevations as needed on your duck club. Working in partnership with the California Waterfowl Association (CWA), this year we have received grant funding to model drainage capacity of landowners to meet the 30-day flood and drain objective.

Permission is requested for the period 26 March 2018 to 30 June 2018. Please fill out, sign, and date the brief associated Managed Wetland Assessment Permission Form. We will provide all of the elevation data collected upon request, and this information will be used in the update of duck club management plans. Also, this information will be used to pursue grant funding opportunities for improving club water management facilities and improvements.

I will serve as the primary contact for SRCD (contact info below), while Ms. Christina Tortosa of SRCD will work with you on timing and conditions for access. Ms. Tortosa is available at 707-631-4078 (cell) and ctortosa@suisunrcd.org. Please let me know if you have any questions.

Sincerely yours,

John Y. Takekawa, PhD
