## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors Suisun Resource Conservation District Suisun, California

## Opinion

We have audited the accompanying financial statements of Suisun Resource Conservation District (District) as of and for the year-ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the Suisun Resource Conservation District as of June 30, 2022, and the respective changes in financial position, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

## **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Board of Directors Suisun Resource Conservation District Suisun, California

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-9, budgetary comparison information on pages 33-34, and schedules of the District's proportionate share of Net Pension Liability and pension plan contributions on pages 35-36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Report on Summarized Comparative Information**

We have previously audited Suisun Resource Conservation District's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated July 13, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Management's Discussion and Analysis For the Year Ended June 30, 2022

The following discussion and analysis of the financial performance of the Suisun Resource Conservation District (the District) provides an overview of the District's financial activities for the fiscal year ended June 30, 2022. Please read it in conjunction with the District's financial statements.

## **Financial Highlights**

- The District's net position totaled \$3,389,173 at June 30, 2022. Of this amount, \$1,645,553 was available for spending at the District's discretion.
- Total net position increased by \$421,293, or 14.2% because of this year's operations.
- Governmental funds of the District's reported a total ending fund balance of \$1,573,984 at June 30, 2022, of which, \$1,476,080 was available for spending at the District's discretion.

## **Overview of the Financial Statements**

The discussion and analyses provided here are intended to serve as an introduction to the Suisun Resource Conservation District's basic financial statements. The Suisun Resource Conservation District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

**Government-wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Suisun Resource Conservation District's finances, in a manner like a private-sector business.

The statement of net position presents financial information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Suisun Resource Conservation District is improving or deteriorating.

The statement of activities presents information showing how the Suisun Resource Conservation District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

Both government-wide financial statements distinguish functions of the Suisun Resource Conservation District that are principally supported by intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Suisun Resource Conservation District include general government and wetland conservation. The District has no business-type activities at June 30, 2022.

The government-wide financial statements can be found on pages 12-13 of this report.

Management's Discussion and Analysis For the Year Ended June 30, 2022

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Suisun Resource Conservation District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Suisun Resource Conservation District are classified as governmental funds.

**Governmental Funds.** Governmental funds are used to accounting for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two individual governmental funds, the general fund, and the special revenue fund. Information is presented separately in the governmental fund balance sheets and in the governmental fund statement of revenues, expenditures, and changes in fund balances for each of these funds.

**Notes to the Financial Statements.** The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-32 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, the report also presents required supplementary information concerning the District's funding progress for the retirement program. Required supplementary information can be found on pages 37-41 of this report.

## **Government-wide Overall Financial Analysis**

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$3,389,173 at the close of the most recent fiscal year.

## Management's Discussion and Analysis For the Year Ended June 30, 2022

The largest portion of the District's net position (48.87%) reflects its investment in capital assets (e.g. land, buildings, machinery, equipment, vehicles, and infrastructure), less any outstanding related debt used to acquire those assets. The District uses these capital assets to provide services to its landowners. As such, these assets are not available for future spending.

The remaining portions of the District's net position is comprised of \$449,793 which is subject to external restrictions on how it may be used and \$1,282,965 of unrestricted position, which may be used to meet the District's ongoing obligations to its landowners and creditors.

					1	Amount	Percent

## Suisun Resource Conservation District's Net Position

At the end of the current fiscal year, the District can report positive fund balances in all reported categories of net position; the same situation held true for the prior fiscal year. However, the District's overall net position increased \$421,293 from the prior fiscal year. The reasons for this increase are discussed in the following sections.

## Management's Discussion and Analysis For the Year Ended June 30, 2022

**Governmental Activities.** During the current fiscal year, net position increased \$421,292 from the prior year ending balance of \$2,967,880. This increase is largely due to increased revenue from intergovernmental sources.

	June 30, 2022	June 30, 2021	Amount Change	Percent Change

Management's Discussion and Analysis For the Year Ended June 30, 2022

#### **Financial Analysis of Governmental Funds**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance- related legal requirements.

**Governmental Funds.** The focus of the District's two governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the District itself, or a group or individual that has been delegated authority to assign resources for use by particular purposes by the District's Board of Directors.

At June 30, 2022, the District's governmental funds reported combined fund balances of \$1,573,984, a decrease of \$2,690 from the prior year. Approximately 70.74% of this amount (\$1,113,491) constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is either non-spendable (\$10,700) or restricted for special projects (\$449,793).

Total governmental revenues including charges for services, donations, licenses and permits, interest income, taxes, and miscellaneous totaled \$1,942,530 in fiscal 2022, a decrease of \$340,038 from fiscal year 2021. Expenditures totaled \$1,990,815 in fiscal year 2022, a decrease of \$152,824 from the prior fiscal year.

## **Capital Assets and Debt Administration**

**Capital Assets.** The District's investment in capital assets as of June 30, 2022 amount to \$1,656,415 (net of accumulated depreciation). This investment includes land, buildings, machinery, equipment, vehicles, improvements and right to use leased assets, net of liability. The net investment in capital assets decreased \$76,544 from the prior year due primarily to equipment purchased in the fiscal year.

#### Suisun Resource Conservation District's Capital Assets (net of depreciation and amortization)

	Ju	ne 30, 2022
Land	\$	1,200,000
Buildings and improvements		130,662
Equipment		326,203
Right-to-use leased equipment		36,476
Total cost	\$	1,693,341

Additional information on the District's capital assets can be found in Note 1D on page 25 of this report.

Management's Discussion and Analysis For the Year Ended June 30, 2022

**Long-Term Obligations.** At June 30, 2022, the District had \$207,111 in long-term obligations. Of this amount, \$96,508 is the net pension liability shown because of the implementation of GASB Statements No. 68 and 71 (see Note 5 on page 26-31 of this report). The remaining is amount owed for accrued compensated absences of \$73,677 and lease liabilities of \$36,926. The amount is entirely backed by the full faith and credit of the District. For more information, see Note 3 on page 26 of this report.

#### **Economic Factors and Next Year's Operating Activities**

The District's management anticipates increases in general and program revenue sources in the upcoming fiscal year. Specifically, intergovernmental revenues such as new grants are likely to increase in FY 2022/2023. The District intends to continuously monitor operating costs to ensure they remain consistent with approved budgeted amounts.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide our customers and creditors with a general overview of District finances and demonstrate District accountability for the money it receives. If you have any questions about this report, or need additional financial information, contact the District's Board of Directors, 2544 Grizzly Island Road, Suisun City, California 94585.

## SUISUN RESOURCE CONSERVATION DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022

Net change in fund balances - total governmental funds	\$ (2,690)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in	
the statement of activities the cost of those assets is allocated over	
their estimated useful lives and reported as depreciation expense.	
Expenditures for general capital assets, infrastructure, and other related	
capital asset adjustments 60,154	
Less: current year depreciation and amortization (96,604)	
Loss on asset disposal (3,168)	
	(39,618)
	())
Revenues and expenditures in the statement of activities that do not require the	
use of current financial resources are not reported as expenditures in the funds:	
Proceeds from issuance of lease	(45,595)
Lease payments	8,669
Change in the liability for compensated absences	(7,928)
Deferred inflows from receivables	284,994
Change in net pension liability and related accounts	223,461
Change in net position of governmental activities	\$ 421,293

NOTES TO FINANCIAL STATEMENTS

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's financial accounts are maintained in accordance with generally accepted accounting principles (GAAP) and the uniform accounting system for districts prescribed by the State Controller in compliance with the Government Code of the State of California. The more significant of the District's accounting policies are described below.

#### **A. Financial Reporting Entity**

The Suisun Resource Conservation District (District) of Solano County was organized on June 6, 1963 and operates under Division 9 of the Public Resources Code, *Resource Conservation*. The District's primary purpose is to regulate and improve water management practices related to the wetlands and wildlife habitat in the Suisun Marsh.

The Board of Directors consisting of five (5) members, serving four-year terms, governs the District. The Board of Supervisors of Solano County approves the appointment of each Director.

#### **B.** Basis of Presentation

#### **Government-wide Financial Statements**

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity, except fiduciary funds (at June 30, 2022, the District does not have any fiduciary funds). The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, debt issuances, and other non-exchange revenues.

#### **Fund Financial Statements**

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund balance, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary (business type), and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered *major* if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or proprietary fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or proprietary fund are at least 5 percent of the corresponding total for all governmental and proprietary funds combined.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **B.** Basis of Presentation (continued)

#### Fund Financial Statements (continued)

The funds of the financial reporting entity are described below:

#### **Governmental funds**

#### General Fund

The General Fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

#### Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes. The District has only one special revenue fund at June 30, 2022, therefore, it is considered major.

#### C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### **Measurement focus**

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the "*current financial resources*" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "*current financial resources*" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balances as their measure of available spendable financial resources at the end of the period.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus and Basis of Accounting (continued)

#### **Basis of Accounting**

#### Government-Wide Financial Statements

These basic financial statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets and liabilities, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Certain types of transactions are reported as program revenues for the District in three categories:

- Charges for services
- Operating grants and contributions
- Capital grants and contributions

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to inter fund activities, payables, and receivables. The following internal balances in the Statement of Net Position have been eliminated:

- Due to/from other funds
- Advances to/from other funds
- Transfers in/out

The District applies all applicable GASB pronouncements for certain accounting and financial reporting guidance. In December of 2010, GASB issued GASBS No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.* This statement incorporates pronouncements issued on or before November 30, 1989 into GASB authoritative literature. This includes pronouncements by the Financial Accounting Standards Board (FASB), Accounting Principles Board Opinions (APB), and the Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure, unless those pronouncements conflict with or contradict with GASB pronouncements.

#### Governmental Fund Financial Statements

Governmental fund financial statements included a Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balance as presented in these statements to the net position presented in the government-wide financial statements. The District has presented all major funds that met the applicable criteria.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## C. Measurement Focus and Basis of Accounting (continued)

#### **Basis of Accounting (continued)**

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis for accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in fund balance. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. The availability period for these revenues is 60 days.

Revenues are recorded when received in cash, except those revenues subject to modified accrual are recognized when due. The primary revenue sources accrued by the District are property tax, intergovernmental revenues, and donations. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Unearned revenues arise when potential revenues do not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when the government receives resources before it has a legal claim to them, as when grant monies are received prior to incurring qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the government has a legal claim to the resources, the unearned revenue is removed, and revenue is recognized.

The Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach of GASB Statement No. 34.

## D. Assets, Liabilities, and Equity Cash and Cash Equivalents

The District's cash resides in the Solano County Treasury and a commercial bank account.

The bank account is funded on a reimbursement basis with the District's cash in the County Treasury. The District uses the commercial bank account to safely and its obligations resulting from day to day operations. As of June 30, 2022, the carrying amount and the bank balance was \$10,700 which is covered by federal depository insurance.

The District's cash in the County Treasury is pooled with the County of Solano. The District is a non-mandatory depositor pursuant to Health & Safety Code §13854. The District's ability to withdraw large sums of cash from the County Treasury may be subject to certain restrictions set by the County Treasurer.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Assets, Liabilities, and Equity Cash and Cash Equivalents (continued)

The cash and equivalents shown on the Statement of Net Position and Government Funds Balance sheet are net of outstanding warrants. Outstanding warrants represent the number of warrants issued but not yet presented to the County for payment. When warrants are issued, expenditures are recorded and an outstanding warrant liability is created, pending payment of the warrant.

The County's pooled cash, and investments are invested pursuant to investment policy guidelines established by the County Treasurer and approved by the County Board of Supervisors. The objectives of the policy are (in order of priority): legality, preservation of capital, liquidity, and yield. The policy addresses the soundness of financial institutions in which the County will deposit funds, types of investment instruments as permitted by the California Government Code, and the percentage of the portfolio which may be invested in certain instruments with longer terms of maturity. A detailed breakdown of cash and investments and a categorization of risk factors are presented in the County of Solano Comprehensive Annual Financial Report. A detailed breakdown of cash and investments and a categorization of risk factors per GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, are presented in the County of Solano Comprehensive Annual Financial Report.

#### Accounts Receivable

Accounts receivable represents the balance due to the District for services rendered.

#### **Due to/from other Funds**

Due to/due from other funds represents amounts owed to/from funds within the reporting entity that are due within one year.

#### **Due to/from other Agencies**

Due to/due from other agencies represents amounts owed *to/by* governmental entities outside the reporting entity.

#### Inventory

The District inventory consists of fuel, which is valued at average cost at the end of each year.

#### **Capital Assets**

Capital assets which include land, equipment, and structures and improvements, are reported in the government-wide financial statements. Capital assets are defined by the District's capitalization policy as assets with an initial cost of more than \$2,500 and an estimated useful life of 5 years or more. Such assets are recorded at historical cost if purchased or estimated historical cost if constructed. Donated capital assets are valued at their estimated fair value on the date of donation.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Liabilities, and Equity Cash and Cash Equivalents (continued)

#### **Capital Assets (continued)**

Equipment, structures and improvements of the primary government are depreciated using the straightline method over the following estimated useful lives:

Asset Type	Useful Life (Years)
Computer equipment	5
Office equipment	7
Specialty equipment and vehicles	5 - 10
Buildings and improvements	10 - 40
Land, easements, and right of way	N/A

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

In the fund financial statements, capital assets used in the District's operations are accounted for as capital outlay expenditures of the District's general fund upon acquisition.

#### **Outstanding Warrants**

Outstanding warrants represent the amount of warrants issued but not yet presented to the County for payment. When warrants are issued, expenditures are recorded and an outstanding warrant liability is created, pending payment of the warrant. Outstanding warrants are not shown as a separate item in the financial statements but are netted against cash and cash equivalents.

#### Accounts Payable

Account payable represents the amounts owed for goods received and/or services rendered.

#### Due to Qualified Landowners

Amounts due to qualified landowners represent funds that will be disbursed to landowners in future periods.

#### **Compensated Absences**

It is the District's policy to permit permanent employees to accumulate earned. but unused compensatory time and vacation pay benefits. Accrued compensatory time and vacation leave is paid at the *time* of the employee's termination based on established District limitations. Compensated absences leave is accrued when incurred in the government-wide financial statements. A liability is reported in the governmental fund only if unused compensatory time or vacation leave after limitations are expected to be liquidated (paid out due to an employee separating from service with the District) with expendable available financial resources.

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Assets, Liabilities, and Equity Cash and Cash Equivalents (continued)

#### Pensions

For purposes of measuring the net pension liability (NPL) and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position (FNP) of the Local Government of Example's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value,

#### **Deferred Outflows/Inflows of Resources**

In addition to assets and liabilities, the Statement of Net Position includes separate sections for deferred outflows and inflows of resources. These separate sections represent a consumption (outflow) or acquisition (inflow) of net position that applies to future periods and will not be recognized as an expense (outflow) or revenue (inflow) until that time.

#### **Equity Classifications**

#### Government-wide Statements

Equity is classified as net position and displayed in three components:

- a. *Invested in capital assets, net of related debt* Consists of capital assets including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. *Restricted net position* Consists of net position with constraints placed on the use either by (1) external groups such as creditors, granters, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other portions of net position of the District that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

#### Fund Balance Policy

Under GASB Statement No. 54, fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The Board of Directors, as the highest level of decision-making authority of the District, has the power to commit and rescind the commitment of fund balances through resolutions. The Board has designated certain

Notes to Financial Statements June 30, 2022

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## D. Assets, Liabilities, and Equity Cash and Cash Equivalents (continued)

#### **Equity Classifications (continued)**

members of management staff to assign funds balances. Those staff members can assign fund balances when the District intends to use those funds for specific projects/purposes. These captions apply only to Fund Balance classifications:

As of June 30, 2022, fund balances were categorized as follows:

- a. *Nonspendable fund balances* are those amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.
- b. *Restricted fund balances* are those amounts that should be reported as restricted when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- c. *Committed fund balances* are those amounts that cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- d. *Assigned fund balances* are those amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed.
- e. *Unassigned fund balances* are those residual funds that have not been assigned to other funds, are not nonspendable, restricted, committed or assigned to a specific purpose. The general fund should be the only fund that reports a positive unassigned fund balance.

In circumstances when an expenditure is made for a purpose in which amounts are available in multiple fund balance classifications, it is the District Spending Priority Policy to use fund balances in order from restricted to unassigned, as listed above.

## **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

#### **Implementation of Accounting Pronouncement**

The District adopted the provisions of GASB Statement No. 87 (GASB 87), *Leases*. GASB 87 requires lessees to recognize operating and capital leases right-of-use assets and lease liabilities on the Statement of Activities. The District adopted GASB 87 effective July 1, 2021 using a modified retrospective transition approach (Note 6).

Notes to Financial Statements June 30, 2022

## NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNT ABILITY

#### A. Property Taxes

The State of California (State) Constitution Article XIII A provides that the combined maximum property tax rate on any given property may not exceed one percent of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100 percent of market value as defined by Article XIII and may be adjusted by no more than two percent per year unless the property is sold or transferred. The State Legislature has determined the method of distributing receipts from a one percent tax levy among the counties, cities school districts and other districts.

Secured, unitary, and supplemental property taxes are apportioned in advance of collection. Unsecured taxes are apportioned after collection.

## **B. GANN Appropriations Limit**

Article XIII B of the California Constitution provides exceptions for some special districts for establishing an appropriations limit. As per Article XIII B, the District is not subject to the appropriations limit because the District was in existence on January 1, 1978, and/or the District's tax levy for fiscal year 1977-78 was below 12 ½ cents per \$100 of assessed valuation.

## NOTE 3: DETAILED NOTES ON TRANSACTION CLASSES/ACCOUNTS

#### A. Accounts Receivable

Accounts receivable for the governmental activities consists of various reimbursement and fees dated June 30 and prior but received subsequent to June 30, 2022. They include:

Department of Water Resources	\$ 247,858
San Francisco Bay Restoration Authority	114,561
National Fish and Wildlife Foundation	45,832
DFW	41,689
SCF	30,450

#### **C. Accounts Payable and Accrued Expenses**

Accounts payable are comprised of payables to various vendors during the normal course of operations, as well as accrued payroll. At June 30, 2022, accounts payable were as follows:

Accrued payroll	\$ 54,120
WRA Inc	18,206
California Reforestation	10,660
Miscellaneous under \$10,000	48,798
	\$ 131,784

### **D.** Refundable Deposits

Refundable deposits of \$4,016 at June 30, 2022 consist of \$16 from the Department of Fish and Wildlife due to be spent on the Grizzly Island Wildlife area and \$4,000 relating to a cleaning and damage deposit.

Notes to Financial Statements June 30, 2022

#### NOTE 3: DETAILED NOTES ON TRANSACTION CLASSES/ACCOUNTS (CONTINUED)

#### **E. Accrued Compensated Absences**

Activity for the fiscal year ended June 30, 2022, was as follows:

Balance June 30, 2		s Redu		Balance at June 30, 2022		rrent rtion	ng-Term ortion
\$ 73,6	.77 \$ 46,780	\$ (4	6,780) \$	73,677	\$	-	\$ 73,677

#### F. Amounts Due to Qualified Landowners

The balance of \$306,686 relates to drought response funds received from the California Department of Water Resources. This entire amount will be paid out to various properties located within District boundaries.

## NOTE 4: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District continues to carry commercial insurance for all risks of loss, including general liability, workers' compensation, and, employee health and accident insurance.

## NOTE 5: PENSION PLANS

#### General Information about the Pension Plan

**Plan Descriptions** – The Plan is a cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes and membership information is listed in the June 30, 2014 Annual Actuarial Valuation Report. This report is a publicly available valuation report that can be obtained at CalPERS' website under Forms and Publications. All qualified permanent and probationary employees are eligible to participate in the District's separate Miscellaneous Employee Pension Plans, cost-sharing multiple employer defined benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions and membership information that can be found on the CalPERS website.

Notes to Financial Statements June 30, 2022

## NOTE 5: PENSION PLANS (CONTINUED)

#### General Information about the Pension Plan (continued)

**Benefits Provided** – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on year of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees Retirement Law.

The Plans' provisions and benefits in effect at June 30 2022, are summarized as follows:

	Miscellaneous		
Hire Date	Hired Prior to January 1, 2013	New Member Hired on or After January 1, 2013	
Benefit formula	2.0% @ 55	2% @ 62	
Benefit vesting schedule	5 years service	5 years service	
Benefit payments	Monthly for life	Monthly for life	
Retirement age	50 - 55	52 - 67	
Monthly benefits, as % of eligible compensation	2.0% to 2.7%	1.0% to 2.5%	
Required employee contribution rates	6.91%	6.75%	
Required employer contribution rates	10.48%	7.73%	

*Contributions* – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July l following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The Plan's actuarially determined rate is based on the estimated amount necessary to pay the costs of benefits earned by employees during the year, with an additional amount to pay any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2022 the contributions recognized as part of pension expense for each Plan were as follows:

	Mise	cellaneous
		Plan
Contributions - employer	\$	91,192

Notes to Financial Statements June 30, 2022

#### NOTE 5: PENSION PLANS (CONTINUED)

# Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

The following table shows the Plan's proportionate share of the risk pool collective net pension liability over the measurement period.

	Miscellaneous
Proportion - June 30, 2021	0.00974%
Proportion - June 30, 2022	0.00508%
Change - Increase (Decrease)	-0.00466%

The District's net pension liability of \$96,508 is measured as the proportionate share of the net pension liability of \$5,408,288,388 (or .001784%). The net pension liability is measured as of June 30, 2021, and the total pension liability was determined by an actuarial valuation as of June 30, 2020 rolled forward to June 30, 2021 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

For the year ended June 30, 2022, the District recognized pension income of \$132,269 for the Plan. The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Changes of Assumptions	\$	-	\$	-
Differences between Expected and Actual Experience		10,822		-
Differences between Projected and Actual Investment Earnings		-		84,246
Differences between Employer's Contributions and				
Proportionate Share of Contributions		-		14,158
Change in Employer's Proportion		40,353		-
Pension Contributions Made Subsequent to Measurement Date		91,192		-
Total	\$	142,367	\$	98,404

Notes to Financial Statements June 30, 2022

## NOTE 5: PENSION PLANS (CONTINUED)

## Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Of the \$142,367 reported as deferred outflows of resources, \$91,192 is related to contributions subsequent to the measurement date, and will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

	Deferred			
<b>Fiscal Year</b>	<b>Outflows</b> /(Inflows)	)		
June 30	of Resources			
2023	\$ (3,451	)		
2024	(7,348	)		
2025	(13,149	)		
2026	(23,281	)		
Total	\$ (47,229	)		

The amounts above are the net of outflows and inflows recognized in the fiscal year 2021 measurement period.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability – For the measurement period ending June 30, 2021 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2019 total pension liability. The June 30, 2021 total pension liability was determined using the following actuarial methods and assumptions:

	Miscellaneous
Valuation Date	June 30, 2020
Measurement Date	June 30, 2021
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.15%
	Derived using CalPERS' Membership Data for all Funds. The
	mortality rates includes 15 years of projected on-going mortality
	improvement using
Mortality Rate Table	90% of Scale MP 2016 published by the Society of Actuaries
Post Retirement Benefit	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchase Power applies 2.50% thereafter.

Notes to Financial Statements June 30, 2022

## NOTE 5: PENSION PLANS (CONTINUED)

**Discount Rate** – The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all period of projected benefit payments to determine the total pension liability.

*Long-term Expected Rate of Return* – The long-term expected rate of return on pension plan investments was determined using a building-block method in which ranges of expected future real rates of return (expected returns net of pension plan investment expenses and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1-10(a)	Real Return Years 11+(b)
Global Equity	50.00%	4.80%	5.98%
Global Fixed Income	28.00%	1.00%	2.62%
Inflation Assets	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Assets	13.00%	3.75%	4.93%
Liquidity	1.00%	3.75%	-0.92%
	100%		

The table below reflects the long-term expected real rate of return by asset class.

(a) An expected inflation of 2.00% used for this period

(b) An expected inflation of 2.92% used for this period

Notes to Financial Statements June 30, 2022

#### NOTE 5: PENSION PLANS (CONTINUED)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Current					
	Discount Rate -1% (6.15%)		unt Rate 15%)		unt Rate +1% (8.15%)	
District's Net Pension Liability	\$ 448,670	\$	96,508	\$	(194,620)	

*Pension Plan Fiduciary Net Position* – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

#### **NOTE 6: COMMITMENTS AND CONTINGENCIES**

#### Equipment Lease

The District has two equipment lease agreements for two copiers: first one was effective from August 7, 2018 for five years and the second one was effective from January 24, 2019 for five years. The following is the minimum commitment as of June 30, 2022:

Year	Ann	Annual Rent			
2023	\$	4,559			
2024		1,193			
	\$	5,752			

#### Building and Ground Space Lease

In July 2016, the District entered into a lease agreement for Building and Ground Space with the State of California through the Department of Fish and Wildlife. The agreement is for five years and the expiration date is June 30, 2022. This lease has been renewed as of July 1, 2022 for another five years. The following is the District's recorded right-to-use leased asset balances for this lease using an estimated discount rate of 2.5%:

	Balance at June 30, 2021 Additions							Dispositio Adjustm		Balance at June 30, 2022		
Right-to-use leased assets - buildings Less: accumulated amortization		-	,	45,595 (9,119)		-		45,595 (9,119)				
Total right-to-use leased assets, net	\$	-	\$	36,476	\$	-	\$	36,476				

Amortization expense was \$9,119 for the year ended June 30, 2022.

Notes to Financial Statements June 30, 2022

#### NOTE 6: COMMITMENTS AND CONTINGENCIES (CONTINUED)

The following is the minimum lease payments:

Year	In	Interest		rincipal	Total		
2023	\$	711	\$	8,889	\$	9,600	
2024		487		9,113		9,600	
2025		256		9,344		9,600	
2026		20		9,580		9,600	
	\$	1,474	\$	36,926	\$	38,400	

#### NOTE 7: LOWER JOICE ISLAND

As part of the agreement for maintaining Lower Joice Island (LJI), the District agreed not to fund District operations with LJI funds. The following is the reconciliation between the Statement of Activities, which is presented on a full accrual basis, and cash that was disbursed on behalf of LJI.

Revenue	\$ 129,208
Expenses	 (152,334)
Net income, Statement of Activities	 (23,126)
Prior year net loss (cumulative)	(493)
Add non-cash depreciation	 29,754
Net income, cash basis	\$ 6,135

#### **NOTE 8: SUBSEQUENT EVENTS**

Management has evaluated subsequent events through May 10, 2023, the date on which the financial statements were available to be issued.

**REQUIRED SUPPLEMENTARY INFORMATION**
